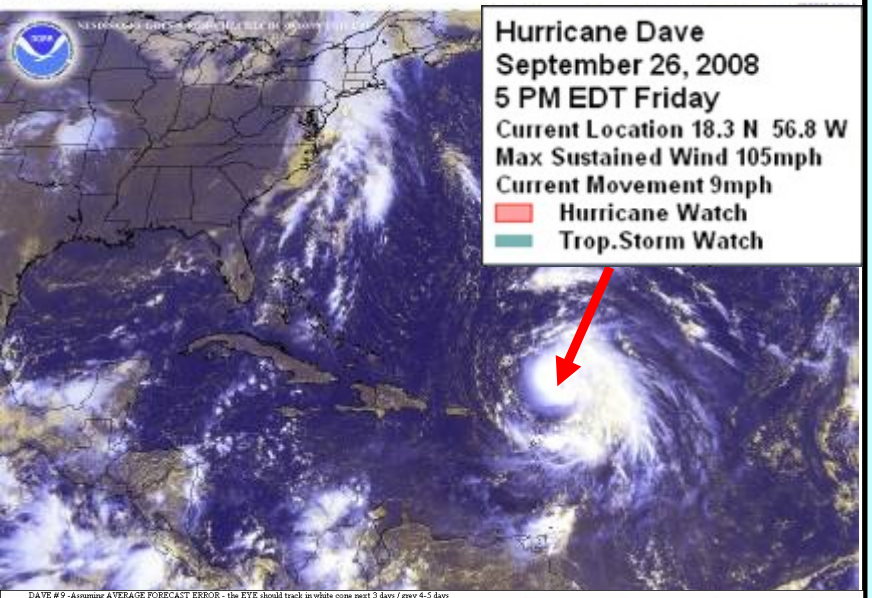
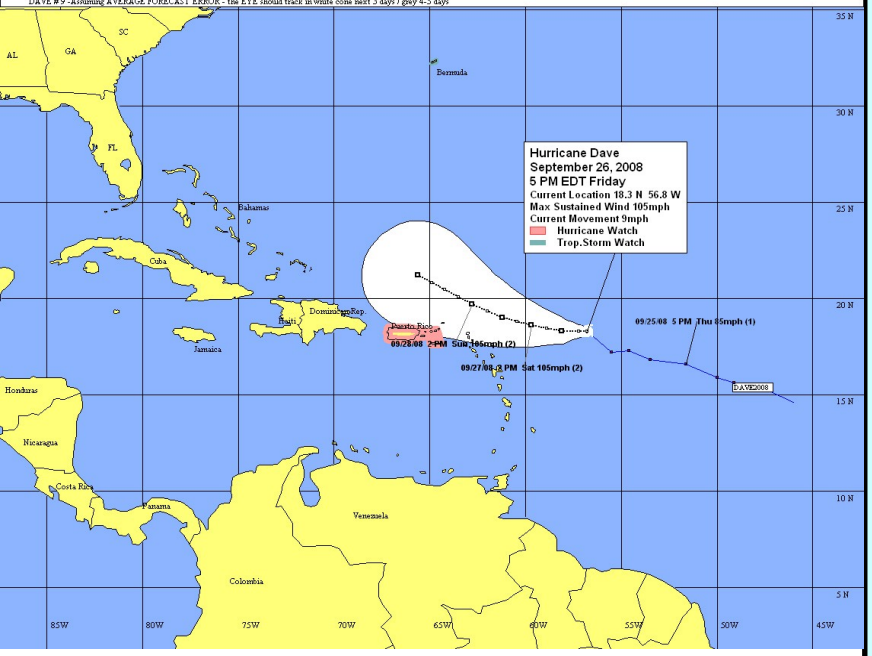
Hurricane "Dave" L-96 – L-72





SITUATION: The National Hurricane Center Advisory # 9 now has David as a Category 2 Hurricane with maximum sustained winds near 105 Mph. The storm has slowed its forward motion to near 9 mph. This could allow the storm to continue to strengthen over the next 24 hours. The current forecast track indicates the storm will move to the north of Puerto Rico and the USVI.

FEMA ACTIVITIES:

NATIONAL - The DHS National Operations Center (NOC) has remains at Level 2 and has continues daily VTC and Battle Rhythm.

REGIONAL - FEMA Region II is activated at Level II (12 Hour/7 days). The Region II Regional Response Coordination Center (RRCC) in New York. **FEMA Region IV RRCC** has activated to Level II and is closely monitoring the storms forecast and have began initial notifications and alerts of IMAT/ERT-A and ESF's. The Pre-scripted Mission Assignment for the NLSA has been initiated through the DCE.

USACE ACTIVITIES:

National - HQUSACE Operations Center (UOC) remains operational and has initiated daily Conference Calls.

Regional - NAD is providing ESF# 3 representation to the RRCC in NY. All SAD PRT's, SMEs and ESF#3 Liaisons remain on Alert. Based on current forecast, no deployments have been ordered at this time for Region II.

District/Local - SAJ and the Antilles Area Office remain on alert for potential response missions in Puerto Rico and the USVI. SAJ is also preparing for possible PL 84-99 activities in response to heavy rains on the Northeast side of Puerto Rico. The PREMA and VITEMA remain on alert. The State of Florida has activated to Level III (Monitoring) based on the current forecast.
